---

I am writing this letter to recommend Saksham Checker for the position of ML/AI engineer. He worked for our company as an ML/AI intern for three months, and he contributed a lot of creativity and innovation to our organization. He has a fantastic understanding of the mathematics behind machine learning and he routinely applied that to optimize our models. He played a significant role, often, in developing and implementing overall emotionally aware tools, and dealt with the details along with the bigger picture. His programming skills are excellent and he always delivers on time.

A huge part of Saksham's job with us was coordinating interdepartmentally to facilitate the completion of company-wide development goals. He's an excellent team player who can work with constructive criticism. Therefore I would like to strongly recommend him as an ML/AI Engineer to potential employers.

A handwritten signature in black ink that reads 'Saurabh' in a cursive, slightly slanted script.
